

Job Title: Data Analyst

Company: TechNova Analytics Pvt. Ltd.

Location: Pune, Maharashtra (Hybrid)

Job Summary:

We are seeking a skilled and detail-oriented Data Analyst to join our analytics team. The candidate will be responsible for collecting, processing, and analyzing data to help improve our decision-making process.

Responsibilities:

- Collect and analyze large datasets to identify trends, patterns, and insights.
- Work with cross-functional teams to support data-driven initiatives.
- Create visualizations and dashboards using tools like Power BI, Tableau, or Excel.
- Clean and preprocess data using SQL, Python, or R.
- Prepare reports and present findings to stakeholders.

Requirements:

- Bachelor's degree in Statistics, Computer Science, Mathematics, or a related field.
- Strong proficiency in SQL and Excel; working knowledge of Python or R.
- Experience with data visualization tools such as Tableau or Power BI.
- Strong analytical thinking and attention to detail.
- Excellent communication and presentation skills.

Preferred Skills:

- Familiarity with cloud platforms like AWS or GCP.

- Experience with data warehousing and ETL processes.
