Profile Summary

BCA graduate with strong technical experience in SQL, data handling, and analytics. Developed and maintained end-to-end data systems for e-commerce projects and collaborated cross-functionally on real-time data operations. Adept at using front-end scripting, campaign performance tracking, and automation tools..

SKILLS

Programming: Python, C/C++, Java
Web Development: React, HTML/CSS, JavaScript, Tailwind CSS
Backend & Database: Flask, SQL/MySQL, PostgreSQL, Google BigQuery
Data Analysis: Excel, Pandas, NumPy, Matplotlib
Others: Git/GitHub, Google Tag Manager (GTM), Computer Networks, DBMS, OS

EXPERIENCE

Tech Intern – Apollo Hospitals	June 27, 2024 – August 24, 2024
<ul style="list-style-type: none">Assisted in collecting and organizing data from various departments, ensuring accurate entry into internal records using Excel.Gained hands-on experience in variance analysis, data accuracy, and reporting automation.Observed data flow across teams within the organization, gaining insights into data management processes.	

PROJECTS

Amazon ML Challenge – Product Rating Prediction (Team Project)
Tech Stack: Python, Pandas, scikit-learn, OCR (Tesseract)
<ul style="list-style-type: none">Extracted product dimensions and specifications from product images using Optical Character Recognition (OCR)Cleaned and structured extracted data using Pandas and NumPy for downstream analysisEngineered features and handled missing values to prepare dataset for machine learning
Gaming-Gear Hub – E-commerce Data & Product Analysis Project
Tech Stack: Python, SQL, PostgreSQL, React, Tailwind CSS
<ul style="list-style-type: none">Developed an affiliate-based gaming accessories platform with categorized product listingsHandled product data entry, filtering, and backend validation, simulating real-time e-commerce financial data flows.Created structured databases and used SQL queries to track inventory, trending products, and price comparisons.
V Card Generator
Tech Stack: React ,QRcode
<ul style="list-style-type: none">Built a tool to generate QR codes from contact info using vCard format.Used React libraries to automate vCard creation and QR rendering.Real-world project showcasing data handling, automation, and deployment.

Leadership Experience

Head of Operations, Google Developer Group (GDG)	Aug 2024 – Present
<ul style="list-style-type: none">Lead and coordinate a team to organize events and workshops.Foster collaboration and clear communication within the team.	
Vice President, Coder's Club	Aug 2023 – Sep/2024
<ul style="list-style-type: none">Co-founded the Coder's Club and established a vibrant tech community.Organized multiple hackathons, promoting collaboration and innovation.Mentored fellow students in coding and problem-solving techniques.	

Education

Bharati Vidyapeeth (Deemed to be University), Kharghar	
BCA (Bachelor of Computer Applications)	Aug 2022 – Present
CGPA : 8.7/10
